SUMMARY

Motivated and analytical Computer Science undergraduate with a strong academic background and leadership experience. Exploring Data Analytics, Web Development, and Data Structures & Algorithms while building hands-on projects and strengthening problem-solving skills. Possesses strong communication, teamwork, leadership, and organizational abilities developed through academic and extracurricular responsibilities. Passionate about continuous learning, technology, business problem-solving, and building practical solutions with real-world impact.

EDUCATION

Vellore Institute of Technology, Bhopal
Computer Science and Engineering (B.Tech) | CGPA: 9.08

Bhopal, India
2024 – 2028

TECHNICAL SKILLS

Programming Languages: C++, SQL, Java (Basics)

Core CS Fundamentals: Data Structures & Algorithms, Database Management Systems (DBMS)

Web Technologies: HTML5, CSS3, JavaScript

Tools: Power BI, GitHub, VS Code

ACHIEVEMENTS

Finalist (Top 60) – Health-Hack Hackathon 2026, Johns Hopkins University, USA

February 2026

- Recognized among 700+ teams for developing *Gati Rehab*, a rehabilitation-focused healthcare solution designed to improve patient recovery monitoring, accessibility, and data-driven rehabilitation support.

PROJECTS

Farmer Friend: Offline AI-Based Plant Disease Detection App for Farmers

Sep 2025 – Present

- Developed an Android application using TensorFlow Lite (TFLite) to detect plant diseases from leaf images with 100% offline functionality, ensuring accessibility in rural areas.
- Trained and optimized an image classification model, converting it into a lightweight .tflite model for real-time, on-device inference on low-end smartphones.
- Integrated live camera capture with a local JSON-based disease–cure database, enabling instant diagnosis and treatment recommendations without internet dependency.

Personal Portfolio Website

May 2026 – Present

- Developed and deployed a fully responsive personal portfolio website using Vanilla JavaScript, HTML5, and CSS3.
- Features include glassmorphism UI, interactive animations, dark/light mode switching, project showcases, certification highlights, responsive mobile optimization, and an integrated contact form.

Web Development Practice Projects

Ongoing

- Designed responsive static web pages using HTML and CSS, focusing on layout, styling, and cross-device compatibility.
- Practiced SQL queries including SELECT, JOIN, and GROUP BY on sample databases to strengthen database fundamentals.

POSITIONS OF RESPONSIBILITY

Operational Manager – MERN Stack Club

Jan 2025 – Present

- Led operations and event management for the nationwide hackathon *Dawn of Code 2025*, with participation from 1000+ students across multiple colleges.
- Managed logistics, scheduling, registrations, and cross-functional coordination to ensure seamless event execution.
- Contributed to planning and on-ground management of one of the club's largest technical events.

Student Representative – Hostel Committee

Feb 2026 – Present

- Worked with the Mess Committee and Block Event Committee for student coordination and hostel event management.

- Organized *HPL'26*, one of the largest inter-hostel sports events, managing volunteer coordination and fixture scheduling.
- Facilitated communication between students, volunteers, and hostel administration for smooth event execution.
